

The Volkswagen Tiguan

You're in a **Tiguan**

For the road less travelled.

For the road taken twice a day.

For the road that should be called a hill.

For losing network.

For finding yourself.

No drive is just another drive when

You're in a Tiguan.

Head turns are standard

The Tiguan's precise lines, pronounced shoulders, a striking bonnet with wider radiator grille, and R18 'Frankfurt' Alloy wheels attract admiring stares on the road, and off it. Its stylish decorative inserts, dual tone storm grey interior, soft touch dashboard, door trim, electric driver seat adjustment with memory, park assist, illuminated gear knob, illuminated scuff plates and USB C-ports are meticulously designed by and for those with an eye for detail.

Skip uncertainty

Stay in charge, regardless of where the road takes you. Tiguan's LED matrix headlights feature the intelligent and adaptive IQ.LIGHT. The IQ.LIGHT matrix has a dynamic and advanced front lighting system (AFS) with range control, cornering light, and poor weather light that provides specially configured light beams for country roads, highways and off-road driving. The advanced front lighting system (AFS) adapts the lighting in front of the vehicle to various driving situations by changing the geometry of the headlight beam. At the rear, the dark red LED combination tail lights with integrated turn signal creates a lasting impression.

4MOTION with drive mode selector

Our advanced 4MOTION technology keeps the Tiguan gripped firmly to the road. As conditions change, it distributes power between the front and rear wheels to help optimize traction and stability.

Find your comfort zone

The Tiguan is perfect for long weekend trips, thanks to its spacious cabin and comfortable Vienna leather seats. Front and rear LED Interior lighting, along with ambient lighting with 30 selectable colours creates the mood you want on your drive. Its 7-Speed DSG predicts your next gear shift before you actually make it, allowing for smoother shifts and quicker gear changes and translates to higher on-road performance and comfortable drives. Tiguan's one quick swipe adjusts the 3-zone smart climate control giving you precision control over your air conditioning so you can find the perfect temperature without ever taking your eyes off the road. Say goodbye to ordinary colours with modern and eye-catching storm-grey interiors for a premium driving experience.

01 Customizable 25.4 cm high-resolution TFT Digital Cockpit

When driving, do you want to just keep your eye on the road and engine speed displays? Or do you want more driving data? Maybe you want the name of the song you're listening to? Or a selection of the above? The choice is literally in your hands. Using the multifunction steering wheel, you can simply configure the digital cockpit. Just the way you like it.

02 Ambient lighting

Bring the interior to glow gently in one of 30 selectable colors. Whether a cooler or warmer color climate, in the illuminated metropolis or at night on the dark country road, with the ambient lighting you can create a different, suitable atmosphere depending on the occasion.

03 20.32 cm touchscreen infotainment system

The intuitive touchscreen infotainment system effortlessly gives you access to music, calls and stay connected with Android Auto™ and Apple Carplay™. It also allows you to access important information about your Tiguan including its tyre pressure and other essential statistics at just a glance.

Stay in charge

Tiguan's intuitive driver-oriented 25.4 cm high-resolution TFT digital cockpit, signature flat bottom multifunction steering wheel and cruise control offers a stress-free highway cruising experience for impromptu drives to another city. Gesture control on the 20.32 cm touchscreen infotainment system gives effortless access to music, calls, and keeps you connected with Android Auto™ and Apple Carplay™. It also informs you about tyre pressure and other essential statistics at just a glance. The wireless mobile charging ensures you're always charged up for every adventure.

Load up on fun

Shopping bags. Guitars. Overpacked luggage bags. One fourth of your garden. The Tiguan lets you carry your world, and then some, wherever you're heading. Its easy open and close boot function lets you open its spacious 615 L trunk hands-free. Just move your foot below the rear for it to recognise the car key in your pocket, and pop open your trunk. While the electric panoramic sunroof on the Tiguan ensures you load up on unforgettable views throughout your journey.

Go beyond your destination

Or go on drives with no destination. The joy of driving a Tiguan is not just like any other. Its revolutionary 2.0L TSI engine brings to the table 190 PS of raw power and 320 Nm torque. Equal parts exciting and economical, it sets itself apart from conventional petrol engines by delivering spectacular power and torque with lower fuel consumption. While the advanced 4MOTION technology helps you drive on any terrain keeping the Tiguan gripped firmly to the road by distributing power between the front and rear wheels to help optimise traction and stability.

2.0 L TSI engine

Volkswagen's revolutionary 2.0L TSI engine brings to the table 190 PS of raw power and 320 Nm torque. Equal parts exciting and economical, it sets itself apart from conventional petrol engines by delivering spectacular power and torque with lower fuel consumption.

7-speed DSG

The Tiguan's 7-Speed DSG predicts your next gear shift before you actually make it. This allows for smoother shifts and quicker gear changes which translate to higher on-road performance and comfortable drives.

No more worry-lines

Tiguan is equipped with 40+ safety features so you can drive for miles, stress-free. Its 6 airbags adjust to crash impact and severity. Its dependable Electronic Stability Control dramatically improves stability and reduces any loss of traction, while the responsive Electronic Differential Lock and Anti-lock Braking System prevent any unexpected skids. Its reliable Hill Descent Control lets you dominate every Hill that comes your way. Front and rear disc brakes make for secure and worry-free drives. New Park Assist (Level 1 ADAS) guides you through tricky spots, letting you discover parking spots deemed too tight for others.
